AUGUST 17, 2018
1ST ANNUAL PREVENTION TRAINING SERIES

Trends in Youth Substance Use and How to Use Data to Guide Prevention Programming (8:45 am-10:30 am). Dan Arnold, LPC, Director, RADAR Center. In this session, participants will review trends in Idaho underage substance use data and learn how to use the data for planning prevention programming.

Substance Use and the Adolescent Brain (10:45 am-12:00 pm). Dr. Raissa Miller, LPC, Assistant Professor, Department of Counselor Education, Research and Program Evaluation Coordinator, Institute for the Study of Behavioral Health and Addiction. In this session, participants will learn about the adolescent brain, learn about how substance use impacts brain functioning, and review implications for prevention.

Ethics in Prevention (1:00 pm - 4:00 pm). Dr. Regina Moro, LPC, Assistant Professor, Department of Counselor Education, Legislative and Community Liaison, Institute for the Study of Behavioral Health and Addiction. In this session, participants will learn about ethical issues specific to prevention.
